

New Silca Remote Car Keys for Opel®

Silca is pleased to introduce two new references for duplicating Opel® remote car keys, the perfect solution for replacing damaged or lost original keys, or to have a duplicate in case of emergency.

What are the main features?

The Silca Remote Car Keys for Opel® have a similar design as the original keys and are supplied ready-to-programme with the PCB, transponder and flip blade included.

Available in two references, one with two and one with three function buttons (lock, unlock and boot release), they can be used on the vehicle models listed below. The keys can be programmed with Advanced Diagnostics devices.

The Silca Remote Car Keys for Opel® are packed individually in a plastic clamshell for easy identification and hook display.

CE The Silca Remote Car Keys for Opel® have been produced in conformity with CE mark European standards.
